

## WARNING FROM KLONDIKE

An Army Officer's Telegram Sent to the Cabinet Meeting.

## NO RICHES IN SIGHT THERE

No Precious Mines Discovered Within the Last Eight Months. Persons Should Not Go to That Country Unless Furnished with Provisions and Supplies for Two Years.

The Cabinet was in session an hour today, the new Attorney General being present, having qualified yesterday. It was stated that the President and his counselors confined their discussion entirely to the Klondike.

A telegram to the War Department, which was sent to the meeting by Secretary Alger, puts a new phase on matters, and tells of a situation which demands increased activity from the War Department.

The telegram is as follows: "Complying with telegram of today, five letters and ten packages from Capt. P. H. Ray addressed to you in hands of Special Courier E. H. Wells, intercepted by me. Substance as follows: Latest bear date of November 2 and 3, refers to action and attempted robbery of coaches, recommends that U. S. Government take steps to effectually check immigration to interior of Alaska of all persons not fully supplied to last two years.

"Give as reason no way to enter a living and that no player discovered have been made within last eight months either in Alaska or the Northwest Territory.

"There is no employment for any large number of people in any capacity, all values are speculative. There is no fixed standard for labor. There is no now or likely to be within twelve months, adequate or efficient means of supplying people now in Alaska or Northwest Territory. In opinion that about seven per cent of all people who have entered during the past year have earned their living and hundreds are now scattered along the river destitute of food, clothing, and money. People coming in have not had the faintest conception what to do to earn a living, and after spending money they bring, become diseased on the river, and 'States' rush will be great the next year, and any step that will prevent people from coming in their ignorance will be an act of charity.

"In view of recent developments and knowledge that the lawless are banding together along the river for the purpose of robbery, when suggestion for Government placing on the river small light draft steamers for high power, armed and used to patrol river, and the placing of detachments as the movement of people demands.

"Earlier sent with dispatches by 4 p. m. train today to report to General Merriam. Also recommends preliminary survey by Cook's Inlet to the interior for all American people.

"ROBINSON, 'Quartermaster.' Another matter discussed was the customs regulations about to be promulgated. Those have been practically agreed on, but have been held back until after discussion by the Cabinet. It is proposed to lighten the charges on those who are confined to the gold territory by agents of the Government. It is believed that these regulations will be acceptable to the Canadian government, as they are practically in line with suggestions agreed to by Mr. Sifton, minister of the interior for Canada.

Secretary Alger's meeting shows a marked improvement. He is gradually free of fever, and has gained in strength. There is no doubt that he will be able to leave the city for some health resort before the end of the week.

## EMBRACERY CASE ENDED.

Investigation Showed That Bribe Paid From \$20 to \$200.

Canton, N. J., Feb. 1.—The Shaw embracery investigation came to an end yesterday when the grand jury adjourned without finding any more indictments. Attorney General J. P. Morgan had the indictments to County Clerk Barber.

The indictments alleged to have been offered in the interest of Eli Shaw, the colored juror, who was indicted and is still in prison, to \$200, offered to Jacob S. Miller, juror who did not take. These are the only indictments in the indictment, but the grand jury declares in the indictment against Lawrence J. S. Miller that he attempted to bribe three others, unknown to the jury.

Chief of Police Johnson and ex-Judge Miles of Stockton, where Miller lives, are jointly indicted for offering Miller the \$200 bribe.

Lawyer S. Miller says that his side of the story is heard in all the courts, so the public will be well to suspend its judgment.

## WILL BE BURIED HERE

The Body of Miss Lenoir Now En Route to This City.

Her Brother-in-Law Refuses to Give to the Coroner the Name of Her Lover.

New York, Feb. 1.—W. W. Galtway, of Washington, D. C., a brother-in-law of Miss Lenoir, who committed suicide yesterday in the Starline Hotel, is today in the Starline Hotel to remove the body for burial in Washington.

Mr. Galtway told the coroner that he lived at No. 335 Sixth street northeast, Washington, and that Miss Lenoir's father and mother, Mr. and Mrs. W. J. Lenoir, lived at Washington also.

Coroner Fitzpatrick tried to get Mr. Galtway to tell who the young man who visited Miss Lenoir regularly was. He believed that he might throw some light upon the case. Mr. Galtway refused to give the name, he said.

"I know the man who visited her. He was a friend of the family, and lived in Washington formerly. I feel certain that had he known that the girl contemplated suicide, he would have tried to dissuade her. Miss Lenoir was not engaged to be married, so far as I know. She was evidently dependent."

Mr. Galtway started with the body for Washington late this afternoon.

## NORTH POLE WEATHER COMING.

The Sage Promises to Screw the Mercury Down Tomorrow.

"I think," suggested the Weather Sage today, as he raked the fire with an iron pick and buckled a pair of slippers under the coffee-bellows, "that some enthusiastic explorer might discover the North Pole at Fifteenth street and New York avenue, or at Ninth and F streets. Things there have what appear to be a North Pole aspect, the climatic conditions are favorable to the existence of a North Pole, and I believe it would pay to prospect in that neighborhood."

"It would be more sensible at any rate, because lunch houses are close together and hot drinks easier to be had around there than on the inside of the polar circle. There might be some danger of frost, but it is not so bad as the experience to be had at the corners. I have mentioned."

"Yes, sir," said the Sage, quaffing a quart of tobacco sauce, "this is what I call Nansenian weather."

Then playing a tune of freeze-out on a string of sleigh bells, the Sage said: "This day, though, is a keen along-side of what tomorrow will be. I am going to crush the mercury down several notches lower and let the wind, on a good cold front. Now, if I increase the cold and stiffen the wind, you can guess how hard the combination will be to heat. The lowest temperature was 12 degrees. Tomorrow will be an orthodox Yankee winter day."

The Judiciary Committee today report favorably the bill taking "sworn and circuit courts" out of the hands of judges, and recommending a new court for fees and compensation.

**WHAT DO THE CHILDREN DRINK?**

Don't give them tea or coffee. Give them the new food called GRAIN-O. It is delicious and nourishing and takes the place of coffee. The more GRAIN-O you give the children, the more health you distribute through their system. GRAIN-O is made of pure grains and is perfectly adapted for babies, children, the elderly, and those who are on a diet. It is the choice of doctors, and is sold in all drug stores. All grocers sell it. 15c and 25c.

## CHRONOLOGICAL ERAS.

## A Few Interesting Facts About the Present Year.

The year 1898 comprises the latter part of the 123d and the beginning of the 124th year of the independence of the United States of America. It corresponds with:

The year 661 of the Julian period, the year 749-750 of the Byzantine era, the year 747 beginning September 1.

The year 563-569 of the Jewish era, the year 2659 beginning at sunset on September 16.

The year 2451 since the foundation of Rome, according to Varro.

The year 2445 since the beginning of the era of Nabonassar, which has been assigned to Wednesday, the 26th of February of the 266th year of the Julian period; corresponding, in the notation of chronologists, to the 747th, and in the notation of astronomers to the 746th year before the birth of Christ.

The year 2674 of the Olympiad or the second year of the 86th Olympiad, beginning in July, if we fix the era of the Olympiads at 776 B. C.

The year 2219 of the Christian era, or the era of the Seleucids, beginning in 312 B. C.

The year 1614 of the era of Diocletian, the year 2558 of the Japanese era, and the 31st year of the period entitled Meiji.

The year 1215-1216 of the Mohammedan era, or the era of the Hegira, the year 1216 beginning May 22.

January 1, 1898, was the 2,414,294th day since the beginning of the Julian period.

## Lynched a Colored Friend.

Center, Ala., Feb. 1.—John Kellogg, a negro, who attempted yesterday afternoon to assault Miss Pearl Roberts, sixteen years old, was captured fifteen miles from the scene of his crime by a posse of 100 men and a pack of bloodhounds this morning. When caught he was given a few minutes to pray, and was then lynched. He admitted his guilt.

## Railroad Tunnel on Fire.

Fairview Tunnel, through the mountains at Johnson's Canyon, near William, Ariz., is on fire, and the officials of the Santa Fe Pacific fear they may be compelled to abandon the tunnel, as they are at a loss to devise means to extinguish the flames. A series of stratum of lime, lava and volcanic ashes succeeding each other, together with the natural richness of the soil, have resulted in starting the fire to smoking. The geological formation of the mountain through which the tunnel passes is chiefly limestone of the highest degree of purity. The American Chemical Association gives to Heurich's beer the highest degree of purity, a quality which can't be obtained. Officials should communicate with the Atkinson Bottling Co., phone thirty-four, for the beer which gives strength and happiness to all mankind.
